 - Experienced in high-level programming language such as Python, Java, and C#
 - Experienced in using PowerBuilder IDE
 - Experienced in object-oriented programming
 - Experienced in using MSSQL, and ORACLE
 - Experienced in using ASP.NET Web Forms, C#.Net, Javascript, JQuery, and Json
 - Minimum experience in using Angular framework for frontend web development
-

WORKING EXPERIENCE:

- **Software Developer Intern in QnE Software Sdn Bhd** *January 2021 to March 2021*
Description: 3 months internship involved in debugging and enhancing a web development project.
Development tools: Angular framework, Node.json, MSSQL, ASP.Net Core, and .NET 5.0 framework
Challenge: Need to learn web development with no experience and had to work in an international team.
Outcome: Gain very minimal experience by assisting 5 to 10 tasks with debugging and enhancing using Angular framework.
- **Software Developer in Orisoft Technology Sdn Bhd** *May 2021 to July 2022*
Description: Full time employee in the role of a full stack developer with tasks such as debugging, enhancing multiple systems, coding new customizations, and live data patching.
Development tools: C# ASP.Net Web forms, Javascript, JQuery, Json, PowerBuilder 12.0, MSSQL, ORACLE
Challenges: 1) Need to pick up the entire system that has been in maturity for over 10+ years, to resolve issues properly without causing any other new issues. 2) Need to learn the SOPs such as procedure for deployment, sync/merge customized files with standard files to ensure customized files are compatible with the latest standard files, and technical skills to achieve specific logic that will resolve reported issues. 3) Need to have high adaptability to constantly shift between 2 different systems that are entirely different from one another, including the 2 different databases MSSQL, and ORACLE.
Outcome: Completed over 80+ tasks with more than half of it deployed into production.
- **Web Developer in JStar Berhad** *August 2022 to present*
Description: Full time employee responsible for integrating different products into a middleware system, and providing tech support for the system.
Development tools: C# ASP.Net MVC framework, razor pages, restless API, MSSQL.
Challenge: Insufficient guidance was provided due to the mentor's workload. **Outcome:** Integrated 5 products within 6 months, and supported over 300+ tickets.
